# THE SMOKE THIEVES

## The Smoke Thieves by Sally Green: A Review by Indian Corrin (Year 10)

This book is definitely one of my favourites because of the outstanding storyline. It is a fantasy story with each chapter being separated into parts of different characters' stories. There are five main characters that each have their own 'country' and ranks - these range from a princess to a demon-hunter. Each story intertwines with one another in such a way that you only realise at the end of the book.

I love this book for many reasons: the main one being that it is so well written that it is very easy to read. When I first picked it up, I thought I would have trouble keeping up with where each character is set but there is a map at the beginning of the book and a 'Place and Characters' index at the back of the book. This meant I could read on whilst flipping back and forth between the pages to keep track.

This is a spellbinding novel with great mystery that meant I was so intrigued that at any spare moment I had, I was reading it because I had to find out what happens next. I highly recommend it to anyone in secondary school might enjoy fantasy.

And if you enjoy it as much as I did then you will be pleased to hear there may be a sequel on the way!
